Stèle of airmen (A)

This place of memory pays tribute to the airmen who disappeared in the plane crash of June 6, 1957. That day, at dawn, a banal exercise mission ended in drama when the plane hit the flank of the mountain. With the shock the plane caught fire, burning the mountain "l' Albèra" at the same time. Six men perished in the flames. The restoration of this monument in June 2017 prevents this place to being forgotten and to continue to live in collective memory.

Château de Valmy (B)

An amazing space leaning against the Albères, embracing the vineyards and the Mediterranean: welcome to the Château de Valmy. Art Nouveau style, it is the work of the Danish architect Viggo Petersen. It is Pierre Bardou, a Peruvian industrialist creator of the brand JOB, who controls this castle for his daughter Jeanne from 1888 to 1900. His descendants are still owners of the castle. They relaunched the wine business and created guest rooms at the Château. Go check it out !
