Ermitage Notre Dame de Consolation (D)

The Hermitage of Our Lady of Consolation dates, according to the oldest writings, to 1496. According to some, the building was built on an old site of pagan worship. Numerous hermitages line the Massif des Albères testifying to the rise of these buildings during the 17th century. This hermitage is also very nice to take a break along your hike. In the shade of the trees, you will be able to take advantage of the place to have a picnic in complete tranquility.

Ouille Beach (E)

The beach of Ouille, between Collioure and Racou, is a real paradise. This confidential beach is mostly frequented by locals or customers of neighboring campsites. With its small pebbles, it extends about 100 meters below the cliffs of the Côte Vermeille. This beach, very quiet even in high season, however, is not monitored and parking to access is quite far. In short, a great place to be away from the crowd.
