Redoute Béar (A)

Due to its strategic maritime position and its proximity to historical boundaries, Port-Vendres has received a great deal of attention from military builders. The historic turning point of the city is around 1659, when after the Treaty of the Pyrenees, King Louis XIV charged Vauban to make "Port-Vendres" a port of war. Go up to the Redoubt Béar built in the 18th century according to the plans of Vauban and immerse yourself in history.

The jetty's lighthouse (B)

Having weathered the weather so far, the metal lighthouse at the pier of Port-Vendres has run bravely 110 years. However the last storms have a little damaged, including its spiral staircase, since removed because of the automation of the lantern. Listed in historical monuments since 2011, go see it before the sea prevails!
