On your path...

Sphinx (A)

When Egypt invites itself on the Côte Vermeille. Observe the coastline and you will discover an authentic sphinx ... with a little imagination. This cape located near the Plage des Elmes is a beautiful place. You have to take the Chemin des Douaniers, by the Plage des Elmes to get there.

Fort Béar (B)

Built between 1877 and 1880, Fort Béar was built in order to lock the borders and replace the fortifications of Vauban with buried polygonal forts. This fort was used until the middle of the 20th century, when a radio station was installed after the German occupation (1949). He is now owned by the Army.

The jetty's lighthouse (C)

Having weathered the weather so far, the metal lighthouse at the pier of Port-Vendres has run bravely 110 years. However the last storms have a little damaged, including its spiral staircase, since removed because of the automation of the lantern. Listed in historical monuments since 2011, go see it before the sea prevails!

Redoute Béar (D)

Due to its strategic maritime position and its proximity to historical boundaries, Port-Vendres has received a great deal of attention from military builders. The historic turning point of the city is around 1659, when after the Treaty of the Pyrenees, King Louis XIV charged Vauban to make "Port-Vendres" a port of war. Go up to the Redoubt Béar built in the 18th century according to the plans of Vauban and immerse yourself in history.
